## Questions to Ask Before Choosing Web Hosting

Have you ever had a million questions that you wanted answered about a web hosting company? Well I have listed below some of the most important questions that you should ask the hosting company in which you are interested in.

- How reliable is the service of a web host?
- What is the uptime percentage of the web host?
- What kind of performance can I expect?
- How good is email and phone support?
- How much will it cost me?
- How much bandwidth will I need for data transfer?
- What about a control panel?
- What about a POP3 account?
- What about anti spam and viruses features?
- What about running my own online store?
- What about Online Marketing Support?
- Is it linux or windows hosting?
